

RHODE ISLAND COLLEGE

Fogarty Life Science Building Renovation & School of Nursing Addition

Keough Construction Management served as the Owner's Project Manager for the Rhode Island College renovations and addition to the Fogarty Life Science Building as well as providing RIC with our professional estimating services. This project encompasses a new 9,500 square foot building addition to the existing Fogarty Life Sciences building. It will function as the new image and headquarters for the highly regarded RIC School of Nursing. The project includes high tech teaching labs and simulation spaces, a debrief room for student assessment, an administrative suite, Dean's office and other support spaces - all emanating from a two story high lobby space designed for student congregation. As RIC's on-site OPM, Keough was stationed at the college in close proximity to the construction site, allowing daily and close up monitoring of the construction progress and consistent interaction with RIC Capital Planning, the contractor, architect/engineers, commissioning
