

# University of Rhode Island: Fascitelli Fitness & Wellness Center Kingston, Rhode Island

Keough provided Conceptual, Schematic and Design Development Cost Estimates to support the adaptive renovation and conversion of the Roger Williams Dinging Center into a 37,000 sq ft, two story state of the art wellness and fitness center. Attributes of this project include the 5,000sq ft cardio room, 3,800sq ft weight room, three large group exercise studios with high-tech AV equipment, Wellness Resource Center offering personalized training assessment, TRX training and Synergy training zones, athletic offices, and contemporary shower and locker rooms. This facility is ADA compliant (including handicap parking, entryways, elevators, athletic equipment, lavatories and shower facilities) and received LEED Gold status (Leadership in Energy and Environmental Design).
